ere present. Chairman Sweeney made a state-ment of the expenses of the last cammign and presented his vouchers, &c. He then tendered his resignation as a member and as chairman of the com-mittee, stating that his business engagements would not permit of his giving the necessary time to the conduct of a campaign. In severing his con-nection with the committee he thanked the members for the hearty support and co-operation they had given him and predicted that there would be no opposition ticket to the one nominated by the democrats this spring. He suggested that another meeting be held at an early day at which the various candidates could be present and that they be allowed to fix the date of the pri-He urged that all who would pledge themselves to support the nominees of the primary should be allowed to take part in the primary and that the lines should not be too closely drawn in municipal affairs, and expressed the belief that those who left the party last fall on the money question would come back

Mr. Sweeney's resignation was then reluctantly accepted and he was tendered a vote of thanks for his efficient s to the party.

At the suggestion of Mr. Sweeney, Mr. C. J. W. Summers was elected to take his place as a member of the committee from the Fourth ward.

Mr. G. L. Boothe, though he repeatedly declined the honor, was elected chairman of the committee.

It was decided to hold another meetthe committee on Wednesday night next to which all candidates were invited, the date of the primary to be fixed at that meeting. The question of fixed at that meeting. The question of who should be allowed to vote at the primary provoked some discussion and Mr. Cook offered the usual resolution, that all known democrats and all white voters who would pledge themselves to support the ticket nominated at the primary be allowed to take part in the primary.
Mr. Dobie moved as an amend-

ment that the name of no man who had not voted the democrat the last election should be placed on the ticket to be voted for at the coming primary.

This provoked a heated discussion

and the amendment was favored by Messrs. Dobie, Wilkins, Penn and Price, who said it was unfair to the democratic voters to allow men who had bolted the lemocratic ticket a few months ago to have their names placed on a demo-cratic ticket at the next election.

Messrs. Boothe, Cook and Carter urged a more liberal course and insisted that those who had left the party on the money question last fall should be allowed to come back to the fold if they would; the voters, and not the eight members of the committee, should de termine whom they should vote for; if

The adoption of this amendment by the committee has caused considerable opposition, as there are several candidates who voted the gold ticket, and who had intended to go into the democratic primary. It is quite certain that the amendment will be reconsidered at the next meeting of the committee, and that the original resolution will prevail. Some members of the committee who voted for the amendment last night have stated to day that they would move a reconsideration of the matter on Wednesday night next. A large majority of the democratic voters are in favor of a more liberal policy than that decided upon last night.
